

# FEMALE SAFETY AS AN ASTROLOGICAL RIGHT

## UNSAFE SYNASTRY : AWARENESS PROJECT

### SUBSTANTIVE EQUALITY

#### Libra Principle

Libra represents balance, fairness, and justice. Substantive equality means female persons are entitled to human dignity, fairness in practice, equity, and not only in theory.

### NON-DISCRIMINATION

#### Solar Principle

The Sun illuminates all without exclusion. Likewise, female persons are entitled to equal access to protection, justice, and recognition. Their harm, urgency, and testimony must be taken seriously and must never be dismissed or minimised.

### STATE OBLIGATION & DUE DILIGENCE

#### 6th House Principle

The 6th House governs service systems, including social services and legal administration. Female persons have the right to access protection, assistance, and institutional support. Failure to provide these constitutes institutional neglect of duty.

### TEMPORARY SPECIAL MEASURES

#### Lunar Principle

The Moon governs temporary conditions and changing needs. Temporary measures allow specific protections and structures to be created when female persons face heightened risk or inequality. These measures exist to restore balance and are justified by necessity.

### ELIMINATION OF STEREOTYPES & HARMFUL PRACTICES

#### Illusion Principle: Eclipses

Illusions distort reality and obscure truth. Stereotypes and harmful beliefs about female persons must be identified and dismantled, as they interfere with their rights, safety, and empowerment.

### FEMALE'S PARTICIPATION & EMPOWERMENT

#### Venus Principle

Empowerment includes the right to self-worth, participation, and autonomy. Female persons must be free to engage in social, legal, and public life without fear, coercion, or exclusion, under full human-rights protection.
